/EDUCATION

>> ITIS Eugenio Barsanti | 2009 - 2014

Degree in computer science.

>> University of Padua | 2014 – 2018

Bachelor's degree in computer science.

I worked in a group on several school projects, in some even as a group leader, organizing the division of tasks and monitoring the quality of work and the achievement of objectives.

Examples of projects carried out are:

- the creation of a website that allows users to draw UML diagrams and get the Java and Javascript source code. (HTML5, CSS3, JAVASCRIPT, BACKBONE, NODE, BOOTSTRAP, MYSQL, AJAX)
- the creation of a website for a car dealership. (CSS, HTML, PHP, JAVASCRIPT)
- the creation of a desktop application for the management of events and personal commitments (C++, QT)

/WORK EXPERIENCE

>> Software Developer

Retail Solutions S.R.L | 18/09/2017–11/11/2017

Creation of a website using ASP.NET that analyzed the ticketing system used by the company and show various information with graphs and tables.

>> Production support

Accenture Italy | 2018 – 2022

Project: Generali life insurances

- Assisted clients with a diagnosis of software issues and concerns
- Collaborated with software developers to fix problems and implement new functionality
- Backend and Frontend software debugging (Cobol and Java with Proprietary software)
- Extensive use of Oracle SQL
